Commercial Management David Lowe 2013-05-31 Commercial Management: theory and practice defines the role of commercial management within project-oriented organisations, providing a framework for and helping to develop a critical understanding of the factors that influence commercial management practice. It also identifies generic aspects of this practice and provides a theoretical foundation to these activities, by reference to existing and emergent theories and concepts, as well as to relevant management best practice. The book is structured into four parts: Part 1 Introduction – Commercial Management in Project Environments explores the nature of commercial practice within project-oriented organisations at the buyer-seller interface. It presents a Commercial Management framework, which illustrates the multiple interactions and connections between the purchaser's procurement cycle and a supplier's bidding and implementation cycles. Additionally, it outlines the principle activities undertaken by the commercial function, identifies the skills and abilities that support these activities and reviews the theories and concepts that underpin commercial practice. Finally, it identifies areas of commonality of practice with other functions found within project-oriented organisations, plus sources of potential conflict and misunderstanding. Part 2 – Elements of Commercial Theory and Practice covers commercial leadership; exploring strategy; risk and uncertainty management; financial decision-making; and key legal issues. Part 3 – Approaches to Commercial Practice addresses best practice management; and commercial and contracting strategies and tactics. Finally, Part 4 – Case Studies offers two extended case studies: Football Stadia (the Millennium Stadium, Cardiff; the Emirates Stadium, Islington; and Wembley Stadium, London); and Heathrow Terminal 5. The book provides a one-stop-shop to the many topics that underpin commercial management practice from both a demand (buy-side) and a supply (sell-side) perspective. It will help develop an understanding of the issues influencing commercial management: leadership, strategy, risk, financial, legal, best practice management and commercial and contracting strategy and tactics. This book's companion website is at www.wiley.com/go/lowecommercialmanagement and offers invaluable resources for both students and lecturers: • PowerPoint slides for lecturers on each chapter • Sample exam questions for students to practice • Weblinks to key journals and relevant professional bodies

Employee Engagement in Theory and Practice Catherine Truss 2013-10-30 In recent years there has been a weight of evidence suggesting that engagement has a significantly positive impact on productivity, performance and organisational advocacy, as well as individual wellbeing, and a significantly negative impact on intent to quit and absenteeism from the work place. This comprehensive new book is unique as it brings together, for the first time, psychological and critical HRM perspectives on engagement as well as their practical application. Employee Engagement in Theory and Practice will familiarise readers with the concepts and core themes that have been explored in research and their application in a business context via a set of carefully chosen and highly relevant original and case studies, some of which are co-authored by invited practitioners. Written in an accessible manner, this book will be essential reading for scholars in the field, students studying at both undergraduate and postgraduate levels, as well as practitioners interested in finding out more about the theoretical underpinnings of engagement alongside its practical application.

Interventional Pain Agnes R. Stogicza 2020-12-11 This comprehensive book serves as a review for the Fellow of Interventional Pain Practice (FIPP) exam and functions as a concise guide for all interventional pain doctors. Through educational initiatives, it helps to promote consensus-building among experts on the effectiveness of existing techniques and avenues for advancement of therapeutic performances. The book is divided into four sections (head and neck, thoracic, lumbar and sacral/pelvic), and each chapter is devoted to the safe, standardized approach to interventional procedures. To prepare both the examiner and the examinee for the FIPP examination, each chapter contains the relevant C-arm images and outlines the most common reasons for "unacceptable procedures performance" and "potentially unsafe procedures performance." Distinguishing it from many of the previous guides, it also includes labeled fluoroscopic high quality images and focuses on the current FIPP-examined procedures with all accepted approaches. Written and edited by world leaders in pain, Interventional Pain guides the reader in study for FIPP Exam and offers a consensus on how interventional procedures should be performed and examined.

Post-Conflict Transition in Lebanon Lyna Comaty 2019-06-07 Addressing one of the most pressing issues of the Lebanese Civil War (1975-1990) that is still unresolved almost 30 years later, this book adopts a political, sociological, and anthropological approach to look at periods of transition from conflict to peace in Lebanon. Inducing a set of questions about the social and political system, the post-conflict state has been pushing for a politics of amnesty and amnesia. The case study delves into the notion of transition from conflict to peace in Lebanon by looking in the case of the estimated 17,000 people who disappeared during the Civil War. Using the concept of liminality to understand the evolution of the issue over the years, the book follows the trajectory of the relatives of the missing, who have formed a *communitas* – a group sharing strong feelings of comradeship and brother/sisterhood by virtue of finding themselves in the same situation. Offering a novel way of looking at transitions, the book is a significant contribution to peace studies, and it will be an interest of students and academics working in human rights, political science, and the Middle East disciplines.

Change Through Time in Psychoanalysis Margaret Ann Fitzpatrick Hanly 2021-04-18 Change Through Time in Psychoanalysis presents a new stage of the work done through the IPA Committee on Clinical Observation between 2014 and 2020—the advances in our method, the Three Level Model (3-LM), and our clinical thinking. In this new volume, ideas on observational research, clinical narratives based on 3-LM group discussions, and adaptations of the model for training candidates show more experience, more depth, more answers, and, of course, new questions. Contributors from three regions of the IPA have written extended case studies of 10 psychoanalyses, rich in verbatim session material, focusing on the main dimensions of the patient's psychic functioning, specific changes in the analytic process, and related interventional strategies. The reader will find, in the method and in the clinical narratives, new and clarifying points of view in the observation of transformations in patients in psychoanalysis and of the analysts' techniques, useful both in professional development and in teaching candidates.

Dear Candidate: Analysts from around the World Offer Personal Reflections on Psychoanalytic Training, Education, and the Profession Fred Busch 2020-11-23 In this first-of-kind book, senior psychoanalysts from around the world offer personal reflections on their own training, what it was like to become a psychoanalyst, and what they would like most to convey to the candidate of today. With forty-two personal letters to candidates, this edited collection helps analysts in training and those recently entering the profession to reflect upon what it means to be a psychoanalytic candidate and enter the profession. Letters tackle the anxieties, ambiguities, complications, and pleasures faced in these tasks. From these reflections, the book serves as a guide through this highly personal, complex, and meaningful experience and helps readers consider the many different meanings of being a candidate in a psychoanalytic institute. Perfect for candidates and psychoanalytic educators, this book inspires analysts at all levels to think, once again, about this impossible but fascinating

profession and to consider their own psychoanalytic development.

Cross-cultural Business Behavior Richard R. Gesteland 2012 The theme of this new edition of Cross-Cultural Business Behavior is CHANGE. First of all, cultures change. In markets around the world, business behaviors are constantly evolving, impelled by generational shifts, improvements in education, and (especially) increasing exposure to the world marketplace. That is why all of the book's 43 'Negotiator Profiles' have been thoroughly updated, with new cases and fresh examples added. In addition to the change in culture, international managers' challenges have changed too. For example, just a few years ago, participants at global management seminars around the world were mainly interested in how to communicate and negotiate with overseas partners. But, they now find that their toughest challenges are how to manage overseas subsidiaries, strategic alliances, and international partnerships. To reflect these new realities, the book's time-tested framework for understanding cross-cultural negotiating behavior has been expanded to include a wide variety of practical pointers on managing in today's global marketplace. This fifth edition is important for everyone involved with global management, whether student or manager, because cultures and business challenges do change. The book is an essential survival guide for doing business in cultures other than one's own.

Disability and Equity at Work Jody Heymann 2014-02 Hundreds of millions of people with disabilities around the world are out of work or underemployed. Disability and Equity at Work is the first book to document what can be done to improve the employment situation of people with disabilities globally.

The Inter-Bank Bond Market in the People's Republic of China Asian Development Bank 2020-08-01 The ASEAN+3 Bond Market Guide series provides country-specific information on the investment climate, rules, laws, opportunities, and characteristics of local bond markets in Asia and the Pacific. It aims to help bond market issuers, investors, and financial intermediaries understand the local context and encourage greater participation in the region's rapidly developing bond markets. This edition focuses on the Inter-Bank Bond Market in the People's Republic of China, which is one of the country's most important bond markets and one of only two that are accessible to foreign investment.

Theory, Practice, and Community Development Mark Brennan 2013-06-19 For many scholars, the study of community and community development is at a crossroads. Previously dynamic theories appear not to have kept pace with the major social changes of our day. Given our constantly shifting social reality we need new ideas and research that pushes the boundaries of our extant community theories. Theory, Practice, and Community Development stretches the traditional boundaries and applications of well-established community development theory, and establishes new theoretical approaches rooted in new disciplines and new perspectives on community development. Expanded from a special issue of the journal Community Development, Theory, Practice, and Community Development collects previously published and widely cited essays, as well as new theoretical and empirical research in community development. Compiled by the editors of Community Development, the essays feature topics as varied as placemaking, democratic theory and rural organizing. Theory, Practice, and Community Development is vital for scholars and practitioners coming to grips with the rapidly changing definition of community.

How Should Democracies Fight Terrorism? Patti Tamara Lenard 2020-06-30 In the wake of major terrorist attacks, calls for ever more draconian policies to prevent further outrages are common. Such responses raise the pressing question: is it possible to effectively fight terrorism while respecting democratic values of equality and trust? Examining recent examples of terrorist atrocities – from the murder of Muslims in New Zealand and Jews in Pittsburgh to the Charlie Hebdo attacks – Patti Tamara Lenard considers how democracies should tackle terrorism within the constraints imposed by democratic principles. For many, the tension between liberty and security necessarily means that the only way to protect security is to sacrifice liberty—but Lenard rejects this claim, and instead argues that security's goal should be to keep all citizens equally secure in the face of terrorist threats. Critiquing existing policies, from exile to racial profiling, she outlines what ethical counter-terrorism policies should look like, arguing for strategies that respect equality and thereby maintain trust among diverse communities in democratic states. This erudite guide to how states might ethically fight terrorism will be essential reading for any student or scholar of public affairs, security, counter-terrorism, and democratic governance.

Purchasing and Supply Management Michiel Leenders 2010-07-13 The Fourteenth Edition of Purchasing and Supply Management provides a comprehensive introduction to the purchasing and supply chain management field, supported by over 40 case studies. Cases cover purchasing and supply chain issues in a variety of settings, from process industries to high tech manufacturing and services as well as public institutions. The text focuses on decision making throughout the supply chain. Based on the conviction that supply managers, in concert with suppliers and distributors, have to contribute to organizational goals and strategies, this edition continues to focus on how to make that mission a reality.

Public Procurement and Aid Effectiveness Annamaria La Chimia 2019-08-08 This edited collection fills a significant gap in the literature by gathering contributions from the most prominent academics and practitioners of aid and procurement. It explores the economic, political and legal relationship between procurement and aid effectiveness in developing countries, and takes stock of current debates in the field. More specifically, the contributions analyse the failures and successes of current initiatives to foster effectiveness and streamline the aid procurement process, and address current themes emerging in the literature related to development, procurement and aid success. A pivotal and timely publication, Public Procurement and Aid Effectiveness will be of interest to a varied and multicultural international audience and a wide range of actors working on aid effectiveness, development, procurement and good governance initiatives in both donor and beneficiary countries.

SOCRATES Dr. Hoff Maarten 2016-12-02 Editorial We are living in an era of digitization thus moving towards a digital government. The use of ICT in public-administration is beneficial and it is not mere a coincidence that the top 10 countries in e-government implementation (according to UN E-Government Survey 2016) are flourishing democracies. There has been a sharp rise in the number of countries using e-government to provide public services online through one stop-platform. According to the 2016 survey, 90 countries now offer one or more single entry portal on public information or online services, or both and 148 countries provide at-least one form of online transaction services. More and more countries are making efforts through e-government to ensure and increase inclusiveness, effectiveness, accountability and transparency in their public institutions. Across the globe, data for public information and security is being opened up. The 2016 survey shows that 128 countries now provide data-sets on government spending in machine readable formats. E-government and innovation seems to have provided significant opportunities to transform public administration into an instrument of sustainable development. The governments around the globe are rapidly transforming. The use of information and communication technology in public administration – combined with organizational change and new skills- seems to be improving public services and democratic processes and strengthening support to public policies. There has been an increased effort to utilize advanced electronic and mobile services that benefits all. Fixed and wireless broadband subscriptions have increased unevenly across regions, with Europe leading, but Africa still lagging behind. We have to focus on these substantial region disparities and growing divide. All countries agreed, in SDG 9, that a major effort is required to ensure universal access to internet in the least developed countries. The rise of Social media and its easy access seems to have enabled an increasing number of countries moving towards participatory decision making, in which developed European countries are among the top 50 performers. But, the issues of diminishing collective thinking and rising Individual thinking are some rising issues that we will have to deal with in the future. There are more sensitive issues like the new classification of citizens into literate-illiterate, e-literate and e-illiterate, that the governments need to look upon. It is a good sign that many developing countries are making good progress. Enhanced e-participation can support the realization of the SDGs by enabling more participatory decision making, but the success of e-government will ultimately depend upon our ability and capability to solve the contrasting issues raised due to this transition with sensitivity. In this issue of SOCRATES we have discussed, this new era of Digital Government.

We have focused on what we have learned from the past and the future we want. From discussions on the role of e-governance within the local government settings in a modern democratic state to the experience of an academia with online examination, we have tried to include every possible aspect of e-governance. Paper authored by Dr. Hoff Maarten, aims to outline the role of e-governance within the setting of a local government in a modern democratic state. It is agreed that a local governmental organization needs to be fit for the purpose of serving its citizens. Fits can be tested both through universally acknowledged principles, and drivers that suit modern on-demand organizations. Paper authored by Mr. Alsaeed Abraheem and Dr. Carl, proposes a conceptual framework which captures the main factors (both enablers and barriers) influence and contributes toward a successful implementation of eServices in countries that have unstable status. The paper draws upon Osborn and Gaebler's work, 'reinventing government', which identifies 10 principles of government transformation. This is used to examine eGov examples in the case of Syria along with previous work covering barriers and enablers to eGov activities within countries that have unstable status. The resulting derived conceptual framework provides a base to understand eGov activity for nations going through geopolitical uncertainty. Paper authored by Mr. Saurabh Chandra highlights the initiatives taken by the Governments in India at various levels to modernise their processes and functions for delivery of information and services to the citizens, using the Information and Communication technology [ICT]. It also highlights E-Government uptake in different parts of the world, highlighting its need in India, as in developing countries like India, there is no comprehensive data on actual e-government uptake on a global scale. Paper authored by Mr. Peter Asare-Nuamah and Mr. Darko Emmanuel Agyepong highlights the various legal policies and framework that support e-governance in Ghana as well as the challenges of implementing e-governance initiatives. The findings of the study indicate that several policies and frameworks support e-governance in Ghana but their implementations are burdened with social, cultural, political and legal constraints. The study provides some recommendations that are necessary to tackle the challenges of e-governance implementation. Paper authored by Mr. Ojo Patrick highlights battling sub-Saharan African countries. The perspective in this paper is that the emergence of democratic governments in this region occurred through lopsided process which impacts on their governance structures. Consequently, the institutionalization of liberal democracy has been omitted; the absence of which creates gaps between aspiration for and struggle by African people for democracy on the one hand, and the actual performance of democratic governments on the other hand. The paper identifies structural deficiencies in the current pattern of governance as the political missing link in the value chain between democracy and development in the region. The paper recommends e-governance; an administrative process that guarantees good governance through accountability and transparency, as the necessary connecting link and panacea to bridging the observable existing gaps. Paper authored by Dr. Nandita Kaushal highlights the Plausibility of E-Governance as a Public Service Delivery Mechanism in India. It argues that there is no doubt, wherever e-governance projects have been conceived, designed and implemented with due regard to the needs of the people there positive outcomes have been visible. However, it has to be acknowledged that most of the projects are facing multiple challenges which are reducing their success rate. It recommends serious consideration to all the issues which are hampering their efficiency. At the same time it suggests measures that must be taken up to maintain the human face of these initiatives. Paper authored by Dr. Inderjeet Singh Sodhi reviews the achievements and progress of e-government in India. The paper briefly discusses various e-government projects in India. The purpose of the paper is to delve into policy and issue of the government of India in making e-government accessible to the common person. It briefly identifies the strategic issues for achievement of e-government. This paper derives a list of key strategic factors that are appropriate for planning, designing, development and implementation of e-government. The paper identifies the range of diverse problems, challenges and barriers planners and developers must face as they work in the e-government projects. The paper discusses prospects and future of e-government in India. The paper highlights the role of government to develop richer and deeper understanding of e-government. Paper authored by Ms. Shreyasi Ghosh attempts to trace the essence of e-government in the modern era of Indian Public Administration today as another new paradigm shift is in the offspring and slowly becoming distinct from the amorphous shape of Public Administration in the Indian context with the ICT-blessed governance, or e-Governance. Paper authored by Ms. Stuti Saxena probes the OGD platform using a qualitative and quantitative lens. This paper shows that OGD usage is popular among the end-users in terms of the number of views and downloads of the datasets. Future research might undertake the empirical investigation of the research hypotheses advanced in the paper. Paper authored by Dr. Jyotirmoy W. Singh is developed by a contributor who has been a national and International online examiner for past six or more years. This paper is based on his experience. It seeks to compare the traditional mode of examination with that of the online examination in citing the mode of High School Leaving Examination of Board of Secondary Education Manipur and International Baccalaureate Organisation (IBO) examination as case studies. I wish scholars and potential readers will find this issue useful. We will bring more special issues focused on e-government and other various dimensions of governance in the near future. Issue Editor Prof. Manoj Dixit Professor and Head, Department of Public Administration, University of Lucknow, Lucknow, India

Finding Unconscious Fantasy in Narrative, Trauma, and Body Pain Paula L. Ellman 2017-05-25 Finding Unconscious Fantasy in Narrative, Trauma, and Body Pain: A Clinical Guide demonstrates that the concept of the unconscious is profoundly relevant for understanding the mind, psychic pain, and traumatic human suffering. Editors Paula L. Ellman and Nancy R. Goodman established this book to discover how symbolization takes place through the "finding of unconscious fantasy" in ways that mend the historic split between trauma and fantasy. Cases present the dramatic encounters between patient and therapist when confronting discovery of the unconscious in the presence of trauma and body pain, along with narrative. Unconscious fantasy has a central role in both clinical and theoretical psychoanalysis. This volume is a guide to the workings of the dyad and the therapeutic action of "finding" unconscious meanings. Staying close to the clinical engagement of analyst and patient shows the transformative nature of the "finding" process as the dyad works with all aspects of the unconscious mind. Finding Unconscious Fantasy in Narrative, Trauma, and Body Pain: A Clinical Guide uses the immediacy of clinical material to show how trauma becomes known in the "here and now" of enactment processes and accompanies the more symbolized narratives of transference and countertransference. This book features contributions from a rich variety of theoretical traditions illustrating working models including Klein, Arlow, and Bion and from leaders in the fields of narrative, trauma, and psychosomatics. Whether working with narrative, trauma or body pain, unconscious fantasy may seem out of reach. Attending to the analyst/ patient process of finding the derivatives of unconscious fantasy offers a potent roadmap for the way psychoanalytic engagement uncovers deep layers of the mind. In focusing on the places of trauma and psychosomatic concreteness, along with narrative, Finding Unconscious Fantasy in Narrative, Trauma, and Body Pain: A Clinical Guide shows the vitality of "finding" unconscious fantasy and its effect in initiating a symbolizing process. Chapters in this book bring to life the sufferings and capacities of individual patients with actual verbatim process material demonstrating how therapists and patients discover and uncover the derivatives of unconscious fantasy. Finding the unconscious meanings in states of trauma, body expressions, and transference/countertransference enactments becomes part of the therapeutic dialogue between therapists and patients unraveling symptoms and allowing transformations. Learning how therapeutic work progresses to uncover unconscious fantasy will benefit all therapists and students of psychoanalysis and psychoanalytic psychotherapy interested to know more about the psychoanalytic dialogue.

Contract Management Peter Sammons 2017-07-03 Contract management is a key management skill, yet it is underplayed in most organizations, which usually default to project management skills as a proxy for contract management skills. Whilst project management skills are equally essential, they are not the same thing. Contract Management looks at the wider contract management picture from an industrial-commercial perspective, and helps set-out typical structures and processes that assist the contract management task. The author uses diagrammatic representations to depict complex ideas. Contract Management includes "learning points" in each chapter, looking at handling problems, procedural changes and enhancing commercial performance.

Applied Inverse Problems Larisa Beilina 2013-08-15 This proceedings volume is based on papers presented at the First Annual Workshop on Inverse Problems which was held in June 2011 at the Department of Mathematics, Chalmers University of Technology. The purpose of the workshop was to present new analytical developments and numerical methods for solutions of inverse problems. State-of-the-art and future challenges in solving inverse problems for a broad range of applications was also discussed. The contributions in this volume are reflective of these themes and will be beneficial to researchers in this area.

Negotiation for Purchasing Professionals Jonathan O'Brien 2013-08-03 Highly effective negotiation skills are an essential element of a purchasing professional's toolkit. Negotiation for Purchasing Professionals provides a step-by-step approach to delivering winning negotiations and getting game changing results. It provides purchasers with the necessary tools and tactics for a detailed, planned approach to negotiation. Jonathan O'Brien shifts the emphasis away from relying mostly upon personality to a more structured approach that enables anyone to negotiate effectively, even when up against a formidable opponent. This approach allows the purchasing professional or the buying team to evaluate the supplier in advance, assess the sales team, and tailor their negotiation strategy depending on cultural differences, personality traits and game theory. Negotiation for Purchasing Professionals provides a strong framework for discussion in advance of the meeting, allowing the negotiator to plan their agenda, objectives and tactics. The book is based upon Red Sheet Methodology, a proven and collaborative technique used by many companies globally. If you are in a buying role, this book will increase your confidence and transform your ability to secure winning outcomes and better business results. Negotiation for Purchasing Professionals was short listed for the ACA-Bruel Prize and was Specially Commended at the Gala Dinner 2013 organised by the Association of Purchasing and Supply Chain (CESA) of HEC School of Management in Paris. Negotiation for Purchasing Professionals is the perfect companion to Jonathan O'Brien's other books Category Management

in Purchasing and Supplier Relationship Management. Used together, they provide a complete and powerful strategic purchasing toolkit.

Benchmarking Public Procurement 2016 World Bank Group 2015-11-12 Public procurement accounts for around one-fifth of global gross domestic product (GDP). Given its size the public procurement market can improve public sector performance, promote national competitiveness, drive domestic economic growth, and boost economic development. Launched at the request of the G20 Anti-Corruption Working Group, Benchmarking Public Procurement presents actionable indicators to help countries identify and monitor policies and regulations that impact how private sector companies do business with the government in 77 economies. The Benchmarking Public Procurement 2016 report is organized under two parts: the public procurement life cycle and the complaint and reporting mechanisms indicators. Data was gathered using standardized questionnaires distributed to expert contributors in each economy. The project builds on the Doing Business methodology and aims to promote evidence-based decision making by governments and shed light over areas where few empirical data have been presented so far.

The 1.5 Billion People Question Harold Alderman 2017-10-12 Most of the people in low and middle-income countries covered by social protection receive assistance in the form of in-kind food. The origin of such support is rooted in countries' historical pursuit of three interconnected objectives, namely attaining self-sufficiency in food, managing domestic food prices, and providing income support to the poor. This volume sheds light on the complex, bumpy and non-linear process of how some flagship food-based social protection programs have evolved over time, and how they currently work. In particular, it lays out the broad trends in reforms, including a growing move from in-kind modalities to cash transfers, from universality to targeting, and from agriculture to social protection. Case studies from Egypt, India, Indonesia, Mexico, Sri Lanka, and United States document the specific experiences of managing the process of reform and implementation, including enhancing our understanding of the opportunities and challenges with different social protection transfer modalities.

Cybersecurity Policies and Strategies for Cyberwarfare Prevention Richet, Jean-Loup 2015-07-17 Cybersecurity has become a topic of concern over the past decade as private industry, public administration, commerce, and communication have gained a greater online presence. As many individual and organizational activities continue to evolve in the digital sphere, new vulnerabilities arise. Cybersecurity Policies and Strategies for Cyberwarfare Prevention serves as an integral publication on the latest legal and defensive measures being implemented to protect individuals, as well as organizations, from cyber threats. Examining online criminal networks and threats in both the public and private spheres, this book is a necessary addition to the reference collections of IT specialists, administrators, business managers, researchers, and students interested in uncovering new ways to thwart cyber breaches and protect sensitive digital information.

After Violence Elin Skaar 2015-04-17 After Violence: Transitional Justice, Peace, and Democracy examines the effects of transitional justice on the development of peace and democracy. Anticipated contributions of transitional justice mechanisms are commonly stated in universal terms, with little regard for historically specific contexts. Yet a truth commission, for example, will not have the same function in a society torn by long-term civil war or genocide as in a society emerging from authoritarian repression. Addressing trials, reparations, truth commissions, and amnesties, the book systematically addresses the experiences of four very different contemporary transitional justice cases: post-authoritarian Uruguay and Peru and post-conflict Rwanda and Angola. Its analysis demonstrates that context is a crucial determinant of the impact of transitional justice processes, and identifies specific contextual obstacles and limitations to these processes. The book will be of much interest to scholars in the fields of transitional justice and peacebuilding, as well as students generally concerned with human rights and democratisation.

Sustainable Development Goals Julia Walker 2019-08-27 Achieving the Sustainable Development Goals through Finance, Technology and Law Reform Achieving the SDGs requires a fundamental rethink from businesses and governments across the globe. To make the ambitious goals a reality, trillions of dollars need to be harnessed to mobilise finance and accelerate progress towards the SDGs. Bringing together leaders from the World Bank, the financial and business sectors, the startup community and academia, this important, topically relevant volume explains what the SDGs are, how they came about and how they can be accelerated. Real-world case studies and authoritative insights address how to direct investment of existing financial resources and re-align the global financial system to reflect the SDGs. In depth chapters discuss how financial institutions, such as UBS Wealth Management, Manulife Asset Management and Moody's Rating Agency are supporting the SDGs. The opportunities arising from Blockchain, Big Data, Digital Identity and cutting-edge FinTech and RegTech applications are explored, whilst the relevance of sustainable and transparent global supply chains is underscored. Significant attention is paid to law reform which can accelerate progress of the SDGs through SME Financing, Crowdfunding, Peer-to-Peer Lending and tax restructuring. To achieve the 'World We Want', much needs to be done. The recommendations contained within this book are critical for supporting a fundamental shift in thinking from business and governments around the world, and for building a more just and prosperous future for all.

Unsettled Balance Rosalind Warner 2015-04-15 The wars on terror, economic crises, climate change, and humanitarian emergencies have challenged decision makers to institute new measures to maintain security. Foreign policy analysts tend to view these decisions as being divorced from ethics, but is this the case? Unsettled Balance, the first rigorous and sustained analysis of security and ethics in the post-9/11 world, shows that ethical arguments about rights, obligations, norms, and values have played a profound role in Canadian foreign policy and international relations, from debates on the "responsibility to protect" as a practice to the militarization of humanitarian aid. Seeking Order in Anarchy Robert W. Murray 2016-11-08 "The idea of multilateralism is not something that can be forced on states, nor does it come naturally to them." —Tom Keating Seeking Order in Anarchy offers insights into both the theoretical foundations and the real-world outcomes of multilateralism in world affairs. Recognizing that Tom Keating's theories, though rooted in Canadian foreign policy, have a broader application in international relations, Robert W. Murray has assembled an array of theoretical interpretations of multilateralism, as well as case studies examining its practical effects. Drawing from the insights of fourteen noted scholars and featuring an essay from Tom Keating himself, this volume examines the conditions that encourage states to adopt

multilateral strategies, and the consequences of doing so in the context of increasingly complex global politics. Seeking Order in Anarchy is an important book for scholars, graduate students, policy makers, and anyone interested in how multilateralism functions in today's world. Contributors: Francis Kofi Abiew, Edward Ansah Akuffo, Greg J. Anderson, David R. Black, Duane Bratt, Antonio Franceschet, Paul Gecelovsky, David J. Hornsby, Tom Keating, Christopher J. Transitional Justice in Latin America Elin Skaar 2016-10-27 This book addresses current developments in transitional justice in Latin America – effectively the first region to undergo concentrated transitional justice experiences in modern times. Using a comparative approach, it examines trajectories in truth, justice, reparations, and amnesties in countries emerging from periods of massive violations of human rights and humanitarian law. The book examines the cases of Argentina, Brazil, Chile, Colombia, Guatemala, El Salvador, Paraguay, Peru and Uruguay, developing and applying a common analytical framework to provide a systematic, qualitative and comparative analysis of their transitional justice experiences. More specifically, the book investigates to what extent there has been a shift from impunity towards accountability for past human rights violations in Latin America. Using 'thick', but structured, narratives – which allow patterns to emerge, rather than being imposed – the book assesses how the quality, timing and sequencing of transitional justice mechanisms, along with the context in which they appear, have mattered for the nature and impact of transitional justice processes in the region. Offering a new approach to assessing transitional justice, and challenging many assumptions in the established literature, this book will be of enormous benefit to scholars and others working in this area.

Psychoanalytic Perspectives on Conflict Christopher Christian 2017-02-03 Since its inception, and throughout its history, psychoanalysis has been defined as a psychology of conflict. Freud's tripartite structure of id, ego and superego, and then modern conflict theory, placed conflict at the center of mental life and its understanding at the heart of therapeutic action. As psychoanalysis has developed into the various schools of thought, the understanding of the importance of mental conflict has broadened and changed.? In Psychoanalytic Perspectives on Conflict, a highly distinguished group of authors outline the main contemporary theoretical understandings of the role of conflict in psychoanalysis, and what this can teach us for everyday psychoanalytic practice. The book fills a gap in psychoanalytic thinking as to the essence of conflict and therapeutic action, at a time when many theorists are re-conceptualizing conflict in relation to aspects of mental life as an essential component across theories. Psychoanalytic Perspectives on Conflict will be of interest to psychologists, psychoanalysts, social workers, and other students and professionals involved in the study and practice of psychoanalysis, psychotherapy, cognitive science and neuroscience.
