Painting the Digital River James Faure Walker 2006-01 "This book is as much about painting as it is about the digital world. But beyond both it's really about visual intelligence. What makes it a joy to read is the lovely match between Faure Walker's subject and his style of writing: apparently artless, just making itself up as it goes along, but actually always with a witty spring, and never slack." -- MATTHEW COLLINGS, artist, critic, author, and television host "As a painter himself, James Faure Walker opens up a provocative dialogue between painting and digital computing that is essential reading for all painters interested in new technologies." -- IRVING SANDLER, author, critic, and art historian "Faure Walker has a distinguished background as both a painter and digital artist. He is an early adopter of digital technology in this regard, so has lived the history of the ever-accelerating embrace of the digital. On top of this, he is a good storyteller and a clear writer who avoids the pitfalls of pretentious art-world jargon." -- LANE HALL, digital artist and professor "Using a wide stream of fresh water as a metaphor, Faure Walker depicts a flow of ideas, concepts, and solutions that result in digital art. All the core elements of an art-style-in-making are here: ties with mainstream and traditional art, stages of technological progress, and reflections on the bright and varied personalities of digital artists. With a personal approach, Faure Walker presents vibrant, exciting, emotionally overpowering art works and describes them with empathy and imagination. This entertaining, sensitive, and observant book itself flows like a river." -- ANNA URSYN, digital artist and professor "Something like this book is overdue. I am not aware of any comparable work. Lots of 'how to do,' but nothing raising so many interesting and critical questions." -- HANS DEHLINGER, digital artist and professor "Here is the intimate narrative of a passionate yet skeptical explorer who unflinchingly records his artistic discoveries and personal reflections. Faure Walker's decades of experience as a practicing painter, art critic, and educator shine through on every page. The book is an essential resource for anyone interested in digital visual culture." -- ANNE MORGAN SPALTER, digital artist, author, and visual computing researcher This book is about art, written from an artist's point of view. It also is about computers, written from the perspective of a painter who uses them. Painting the Digital River is James Faure Walker's personal odyssey from the traditional art scene to fresh horizons, from hand to digital painting--and sometimes back again. It is a literate and witty attempt to make sense of the introduction of computer tools into the creation of art, to understand the issues and the fuss, to appreciate the people involved and the work they produce, to know the promise of the new media, as well as the risks. Following his own winding path, Faure Walker tells of learning to paint with the computer, of misunderstandings across the art and science divide, of software limitations, of conversations between the mainstream and digital art worlds, of emerging genres of digital painting, of the medieval digital, of a different role for drawing. As a painter and computer enthusiast, the author recognizes the marvels of digital paint as well as anyone. But he also challenges the assumption that digital somehow means different. The questions he raises matter to artists of every background, style, and disposition, and the answers should reward anyone seeking insight into contemporary art.

The conscience of cinema Thomas Waugh 2017-11-16 The Conscience of Cinema is not only a history of a rich and varied personal oeuvre by a prolific documentary maker who worked on every continent and through seven decades, from the 1920s to the 1980s: it is also the history of the aspiration to use documentary film to change the world by a committed leftist, as well as a microcosmic history of documentary form, technology and culture, and its place within world cinema as a whole throughout the twentieth century. Ivens worked in almost every genre of documentary, including the essay, compilation, hybrid dramatization, direct cinema, social observation, the solidarity film, socialist realism, and agitprop activism. In this book, detailed filmic analysis is enriched by a profound historical understanding of the contexts in which Ivens carried out his vision, from his native Netherlands to the Soviet bloc, USA, France, Latin America, Vietnam, and finally China. Everywhere, Joris Ivens left an indelible artistic and political mark, critically relevant to a 21st century in which documentary has reclaimed its cultural and political centrality.

Chrysler TorqueFlite A-904 & A-727 Tom Hand 2017-10-16 The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Radical Picasso Charles F. B. Miller 2022-01-11 "While the personality cult of Pablo Picasso still holds sway over his popular reputation, the force of his work has fallen into disuse. In this groundbreaking and ambitious study, C. F. B. Miller uses that force to undo and remake our understanding of the twentieth century's most legendary artist. By critiquing this legend and showing how, even now, the art itself disrupts received ideas, Radical Picasso rethinks Picasso's function in the history of modernism. Presenting a fresh account of cubism as an art of negativity and excess, Miller juxtaposes early cubist painting with G. W. F. Hegel, high cubism with Plato and his critics, and 'synthetic' cubism with Walter Benjamin. The 'guitar' assemblages of 1926 radicalize collage, taking up the racialized and gendered remainders of modernist aesthetics. Next to surrealism, Picasso's sexuality becomes a biopolitical problem, while the Crucifixion of 1930, and the Picasso myth at large, intersect with the writings of Georges Bataille. At the same time we see how, from his arrival in the art market to the games he played with his self-image in the 1950s, Picasso exploited the very fictions of genius that today determine his posthumous brand. Ultimately, in deconstructing the institution we call 'Picasso,' Radical

Picasso retrieves his art from misrepresentation and argues for its continuing use value as a means of thought"--

Bohemian Manifesto: A Field Guide to Living on the Edge Laren Stover 2021-01-22 Bohemians don't care what the neighbors think. They live free and fearlessly, pursuing their ideals and artistic inclinations. This NEW EDITION of Bohemian Manifesto is an exciting glimpse into the world of counterculture living, full-color dreaming and poetic revelations. Authors Laren Stover and Paul Himmelein deliver wit, whimsy, and insider wisdom as they build upon the five types of Bohemians—Folkloric, Beat, Dandy, Nouveau and Zen—exploring two additional Bohemian subsets: the earth-loving Fairy Folk with their mystical glamour, and the dapper denizens of the shadows, otherwise known as Dandy Goths, charmingly detailing their peculiar eccentricities and styles. The authors also expand on the elevated ethos, ecologically driven aesthetic and herbivore habits of the Zen Bohemian, the modern world's most likely saviors. With new illustrations by the acclaimed international artist Izak, Bohemian Manifesto dares you to open to any page and let its shimmering descriptions tempt you to live a more authentic life.

Citroen Lance Cole 2014-03-31 In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.
