The Unknown Mother Dielle Ciesco 2013-01-14 It isn't every day that one meets a goddess, let alone a Matrika or being that presides over the sounds of language. It is said such deities can bring us complete liberation. Will that prove true for a struggling vocalist named Wrenne when a mysterious woman appears and offers to help her find her True Voice? This beguiling and eccentric teacher guides us all on a deep and powerful journey through 10 mystical gates of sound, sharing great insights, secrets, and profound wisdom about the power of letters, words, and our very own voice to transform the world around us. This isn't standard knowledge; this is a gift for our times, taking the reader into the very heart of sonic revelations.

Unknown Museums of Upstate New York Chuck D'imperio 2013-08-29 Unknown Museums of Upstate New York is an informative and entertaining guide to the rich resources available at fifty small, often overlooked, regional museums. Even those familiar with the upstate area will likely have never visited and perhaps never heard of some of the treasures this guide unearths, such as the Catskill Fly Fishing Museum, the Kazoo Museum, and the Robert Louis Stevenson Cottage and Museum. D'Imperio tells each museum's story, in light of its cultural and historical relevance, and he provides a wealth of information about the museums as places of interest to visit, not just to read about.

Pattern Poetry Dick Higgins 1987-07-01 Pattern poetry—poetry from before 1900 that fuses literature and visual art—has existed since the times of ancient Crete and Egypt. Less well known than modern visual poetry, pattern poetry has been produced in most European and American literatures, and, as close analogues, in many oriental literatures. This book tells the history of pattern poetry, documenting and classifying more than 2,000 works. Illustrations of each major genre of pattern poem are included. The book also explores related forms, such as graphic music notations, shaped prose, sound poetry, and poetic labyrinths, to name a few. A glossary, essays by two world authorities on the oriental analogues to the pattern poem, and the first full bibliography on pattern poetry complete the work. With this book, Dick Higgins has provided an indispensable tool for opening up the area of pattern poetry to the scholar and the lay reader alike, bringing order to what has been an obscure and confusing area, and delighting the eye and mind by casting light on these forgotten treasures.

A Leadership Guide to Navigating the Unknown in Education Sally J. Zepeda 2021-02-15 Recognizing that education systems have been temporarily paralyzed in the past and likely will in the future—whether it's because of a natural disaster or a pandemic—this important volume offers critical insights about how schools can effectively carry forward the mission of educating all children even in the face of system turbulence and disruption. Featuring Narratives from expert leaders in urban, rural, and suburban school systems, this book explores important questions about the "new normal" such as the ways in which students can and should learn, how educators can teach and lead effectively, and how schools can carry out important functions beyond their instructional mission. Chapters present inspiring stories of leaders and teachers who have rallied, rebuilt, and problem-solved in face of the pandemic and amid adversity, ultimately providing a roadmap for how it's possible to rebuild and adjust while preserving the fundamental core of education. Full of takeaways and first-hand insights into how systems and their schools faced turbulence, disruption, and adaptation, this book is a must-read for today's educators committed to making a positive impact on the students they have the duty to serve.

Ethiopia, the Unknown Land Stuart Munro-Hay 2002-02-21 Ethiopia, legendary home of the Queen of Sheba who travelled to Jerusalem to meet Solomon, resting-place of the Ark of the Covenant and battleground of the great emperors from Ezana in the 4th century AD to Haile Selassie in modern times, has inspired many travellers and writers since time immemorial. Recently few have journeyed there or, indeed, have any conception of the extraordinary cultural treasures that await visitors. Stuart Munro-Hay knows Ethiopia intimately, having lived and researched there over many years. He has produced the first truly comprehensive guide to the monuments of this beautiful, culture-steeped country, as well as offering a literary companion. Here is a guide to Ethiopia's architecture, geography, peoples, art and history, embracing all the major sites of the land over the ages. It will become the classic reference guide.

We Have No Idea Jorge Cham 2017-05-16 'This witty book reveals the humbling vastness of our ignorance about the universe, along with charming insights into what we actually do understand' Carlo Rovelli, author of Seven Brief Lessons on Physics and Reality Is Not What It Seems In our small corner of the universe, we know how some matter behaves most of the time and what even less of it looks like, and we have some good guesses about where it all came from. But we really have no clue what's going on. In fact, we don't know what about 95% of the universe is made of. So what happens when a cartoonist and a physicist walk into this strange, mostly unknown universe? Jorge Cham and Daniel Whiteson gleefully explore the biggest unknowns, why these things are still mysteries, and what a lot of smart people are doing to figure out the answers (or at least ask the right questions). While they're at it, they helpfully demystify many complicated things we do know about, from quarks and neutrinos to gravitational waves and exploding black holes. With equal doses of humour and delight, they invite us to see the universe as a vast expanse of mostly uncharted territory that's still ours to explore. This is a book for fans of Brian Cox and What If. This highly entertaining highly illustrated book is perfect for anyone who's curious about all the great mysteries physicists are going to solve next.
