Reading the Visual Tony Schirato 2020-07-29 From the body to the ever-present lens, the world is increasingly preoccupied with the visual. What exactly is the visual' and how can we interpret the multitude of images that bombard us every day? Reading the Visual takes as its starting point a tacit familiarity with the visual, and shows how we see even ordinary objects through the frameworks and filters of culture and personal experience. It explains how to analyse the mechanisms, conventions, contexts and uses of the visual in western cultures to make sense of visual objects of all kinds. Drawing on a range of theorists including John Berger, Foucault, Bourdieu and Crary, the authors outline our relationship to the visual, tracing changes to literacies, genres and pleasures affecting ways of seeing from the Enlightenment to the advent of virtual technology. Reading the Visual is an invaluable introduction to visual culture for readers across the humanities and social sciences. Eloquently written, admirably clear, passionately argued, Schirato and Webb have given us one of the best textbooks on the emergent field of visual culture. Smart, clear and relevant examples challenge readers to question their visual environments and become critics and creators themselves.' Professor Sean Cubitt, University of Waikato This is a splendid book. It is both intellectually sophisticated and written in an extremely accessible manner.' Professor Jim McGuigan, Loughborough University This book treats the interpretation and value of visual artefacts with depth, while remaining highly accessible. It is very readable: written in a lively and engaging style with examples that are refreshing and up-to-date.' Professor Guy Julier, Leeds Metropolitan University

Wedding Toasts I'll Never Give Ada Calhoun 2017-05-16 Seven essays celebrating the beauty of the imperfect marriage. We hear plenty about whether or not to get married, but much less about what it takes to stay married. Clichés around marriage—eternal bliss, domestic harmony, soul mates—leave out the real stuff. After marriage you may still want to sleep with other people. Sometimes your partner will bore the hell out of you. And when stuck paying for your spouse’s mistakes, you might miss being single. In Wedding Toasts I'll Never Give, Ada Calhoun presents an unflinching but also loving portrait of her own marriage, opening a long-overdue conversation about the institution as it truly is: not the happy ending of a love story or a relic doomed by high divorce rates, but the beginning of a challenging new chapter of which "the first twenty years are the hardest." Calhoun's funny, poignant personal essays explore the bedrooms of modern coupledom for a nuanced discussion of infidelity, existential anxiety, and the many other obstacles to staying together. Both realistic and openhearted, Wedding Toasts I'll Never Give offers a refreshing new way to think about marriage as a brave, tough, creative decision to stay with another person for the rest of your life. “What a burden,” Calhoun calls marriage, “and what a gift.” The White Woman on the Green Bicycle Monique Roffey 2011-04-26 A beautifully written, unforgettable novel of a troubled marriage, set against the lush landscape and political turmoil of Trinidad—by the award-winning author of The Mermaid of Black Conch Monique Roffey's Orange Prize-shortlisted novel is a gripping portrait of postcolonialism that stands among great works by Caribbean writers like Jamaica Kincaid and Andrea Levy. When George and Sabine Harwood arrive in Trinidad from England, George is immediately seduced by the beguiling island, while Sabine feels isolated, heat-fatigued, and ill-at-ease. As they adapt to new circumstances, their marriage endures for better or worse, despite growing political unrest and racial tensions that affect their daily lives. But when George finds a cache of letters that Sabine has hidden from him, the discovery sets off a devastating series of consequences as other secrets begin to emerge.

The rules of weather-speak. The ironic-gnome rule. The reflex apology rule. The paranoid-pantomime rule. Class indicators and class anxiety tests. The money-talk taboo and many more ...Through a mixture of anthropological analysis and her own unorthodox experiments (using herself as a reluctant guinea-pig), Kate Fox discovers what these unwritten behaviour codes tell us about Englishness.

From Publishers Weekly: Women who dye their hair blonde may think twice before heading to the salon after reading Frasier's (Hush) enthralling thriller about a serial killer who plucks the eyes out of his young blonde victims and grafts rose stems onto their fingers-all in an effort to create the perfect woman. Minneapolis FBI agent Mary Cantrell has a personal interest in the latest string of murders taking place in her hometown. The killer may very well be an old high school classmate named Gavin Hitchcock, who was convicted of raping and murdering her best friend and then released after serving nine years in prison. But when the abductions persist even after Gavin is returned to custody, Mary's sister, Gillian, a local cop who's befriended Gavin and believes him to be innocent, goes undercover to trap the real killer. Some vivid autopsy scenes may turn the stomachs of the squeamish, but there's a lot more to this clever intrigue than graphic police procedures. Indeed, one of Frasier's many strengths is her ability create characters and relationships that are as compelling as the mystery itself. From the estranged Cantrell sisters and their broad-minded mother to Mary's handsome partner and the troubled Gavin, Frasier's well-rounded characters will linger with readers long after the killer is caught. Pictures at a Revolution Mark Harris 2008-02-14 The epic human drama behind the making of the five movies nominated for Best Picture in 1967-Guess Who's Coming to Dinner, The Graduate, In the Heat of the Night, Doctor Doolittle, and Bonnie and Clyde-and through them, the larger story of the cultural revolution that transformed Hollywood, and America, forever It's the mid-1960s, and westerns, war movies and blockbuster musicals-Mary Poppins, The Sound of Music-dominate the box office. The Hollywood studio system, with its cartels of talent and its production code, is hanging strong, or so it would seem. Meanwhile, Warren Beatty wonders why his career isn't blooming after the success of his debut in *Splendor in the Grass*; Mike Nichols wonders if he still has a career after breaking up with Elaine May; and even though Sidney Poitier has just made history by becoming the first black Best Actor winner, he's still feeling completely cut off from opportunities other than the same "noble black man" role. And a young actor named Dustin Hoffman struggles to find any work at all. By the Oscar ceremonies of the spring of 1968, when *In the Heat of the Night* wins the 1967 Academy Award for Best Picture, a cultural revolution has hit Hollywood with the force of a tsunami. The unprecedented violence and nihilism of fellow nominee *Bonnie and Clyde* has shocked old-guard reviewers but helped catapult Warren Beatty and Faye Dunaway into counterculture stardom and made the movie one of the year's biggest box-office successes. Just as unprecedented has been the run of nominee *The Graduate*, which launched first-time director Mike Nichols into a long and brilliant career in filmmaking, to say nothing of what it did for Dustin Hoffman, Simon and Garfunkel, and a generation of young people who knew that whatever their future was, it wasn't in plastics. Sidney Poitier has reprised the noble-black-man role, brilliantly, not once but twice, in *Guess Who's Coming to Dinner* and *In the Heat of the Night*, movies that showed in different ways both how far America had come on the subject of race in 1967 and how far it still had to go. What *City of Nets* did for Hollywood in the 1940s and *Easy Riders, Raging Bulls* for the 1970s, *Pictures at a Revolution* does for Hollywood and the cultural revolution of the 1960s. As we follow the progress of these five movies, we see an entire industry change and struggle and collapse and grow-we see careers made and ruined, studios born and destroyed, and the landscape of possibility altered beyond all recognition. We see some outsized personalities staking the bets of their lives on a few films that became iconic works that defined the generation-and other outsized personalities making equally large wagers that didn't pan out at all. The product of extraordinary and unprecedented access to the principals of all five films, married to twenty years' worth of insight covering the film industry and a bewitching storyteller's gift, Mark Harris's *Pictures at a Revolution* is a bravura accomplishment, and a work that feels iconic itself.
